

The format for the upcoming water distribution exam has changed. Beginning with the April 2004 exam, the format for the exams will be as follows.

Exam	Multiple Choice Questions	Math Questions	Total Points
D1	40	10	170
D2	50	10	200
D3	50	12	210
D4	60	12	240
D5	60	14	250

- The exams will consist of multiple-choice questions worth three points and math questions worth 5 points each.
- There will be no essay questions on the distribution exams.
- The subject matter of the exams will not change. The previous “Expected Range of Knowledge” will apply.
- The pass point will continue to be 70%.
- The time allowed will be three hours.
- You must show your work on the math problems in order to receive credit.
